## EDUCATION

### International Institute of Information Technology, Hyderabad

B.Tech in Electronics and Communications Engineering

- JEE Mains 2024: All India Rank X, Percentile 99.6

Aug. 2024 – May 2028

Hyderabad, India

## PROJECTS

### Non-Ideal Sampling & Audio Signal Analysis

Digital Signal Processing

- Developed reconstruction algorithms for **non-ideal sampling** under **timing jitter** and **random sample loss**, and implemented **drum beat detection** on real audio recordings, identifying hit timestamps and estimating decay duration.

### Heart Rate Estimation from ECG Signals

Biomedical Signal Processing

- Analyzed ECG signals sampled at 128 Hz to estimate heart rate variability under noise-free and noisy conditions.
- Estimated heart rate per minute and tracked variability over time, comparing results between clean and noisy signals.

### Bird Sound Analysis using Spectrograms

Audio Signal Processing

- Analyzed audio recordings of two distinct bird species using time–frequency representations to extract species-specific acoustic features.

### Linux Shell Implementation

Systems Programming

- Implemented a **UNIX shell** in C supporting command execution using **fork()** and **exec()**.
- Added **job control** features including foreground and background process management and implemented **pipelines** to enable command chaining using inter-process communication.

## TECHNICAL SKILLS

**Programming Languages:** C/C++, Python, JavaScript,

**Hardware & Simulation:** Verilog, LTspice, NGSpice, Computer Architecture, RISC-V ISA, MATLAB

## LEADERSHIP & ROLES

- Managed events and logistics for E-Cell initiatives, overseeing registrations and end-to-end venue support for 300+ attendees.
- Coordinated venue operations for Megathon, Hyderabad's largest student-run hackathon, successfully supporting 1,100+ participants.

## INTERNSHIP OBJECTIVE

- Seeking a **Software Development Internship** for the period **May – July**.
- Open to **remote opportunities** as well as **on-site roles** in **Gachibowli (Hyderabad), Delhi, Noida, and Gurugram**.
